Acoustic Measurements Engineer

Onda Corporation is the industry-leading innovator in ultrasound device design and manufacturing, serving mostly the medical device industry. We are located in Sunnyvale, California, and have an 18-year history of creating solutions to our customers' technical challenges. Our customer base is global and we have distributors in Europe and Asia.

We are searching for an **Acoustic Measurements Engineer** for our Test and Measurement Products and Services. This individual will also be responsible for global customer support, and the position may require traveling up to 30% of the time throughout North America, Europe and Asia.

Along with your resume, please submit a letter describing your talents, strengths and weaknesses.

Qualifications:

- Bachelor's degree in Physics or Engineering, with a good understanding of the physics of wave phenomena
- Demonstrated ability to communicate orally and in writing
- Experience with test & measurement, particularly with regards to capturing signals, practical laboratory signal processing, and automatic motion control systems and related software.
- Proactive and accurate in understanding and striving to meet customer needs, as demonstrated in past interactions with external customers or with colleagues within an organization.
- Familiarity with quality systems (e.g., ISO 17025) is a plus
- Familiarity with Matlab is a plus

Responsibilities include:

- To quickly develop and maintain a thorough understanding of the use of standard Onda products.
- Implementing new techniques of hydrophone calibration and characterization
- Measurement of the acoustic output of medical devices
- Participation in and sometimes leading hardware or software design projects for internal use as well as for test and measurement products
- Maintenance of the quality system for Onda's Acoustics Lab
- Maintaining communications to assure customer satisfaction before, during, and after sales.
- Tracking technical questions and complaints.
- Provide on-site installation and training for Onda products
- Develop effective application notes and manuals.

Onda offers a competitive benefits package including medical, dental, long term disability, retirement, and bonus plan. Salary will be competitive, commensurate with individual's experience and capabilities. Please contact: info@ondacorp.com
